Features and Specifications

## Features

### Rebound Silicone Cushion

The rebound silicone cushion is airtight, light and soft. It is designed to reduce facial pressure, improve fit and comfort.

### Quiet Vent Technology

Honeycomb design, reduces airflow erosion intensity for a peaceful and quiet night's sleep.

### Quick Release Connector

The quick-release connector easily releases or reconnects the mask with a positive and secure latch.

### Soft and Light Headgear

Selected soft skin-friendly fabrics are light and stable and helps patients adapt to treatment comfortably.

### Adaptive Silicone Cushion

The silicone cushion has an adaptive design at the nose bridge that automatically adjusts to different face shape, better relieving pressure and improving user experience.
